Research Profile

I am an undergraduate at Sichuan University, pursuing dual bachelor's degrees in Mathematics and Artificial Intelligence. I am interested in **AI for Science**, **large language models**, and **scalable physical intelligence**. Now, I am actively learning about recent advances in LLM reasoning and generative AI, among other cutting-edge fields. I look forward to exchanging ideas, exploring potential research collaborations, and pursuing PhD opportunities.

Education

Sichuan University Sep. 2024 – Jun. 2028 (expected)
Dual Bachelor's Degrees in Mathematics and Artificial Intelligence **GPA: 3.8/4.0** | **Rank: 1/27**

Research Experience

Institute for AI Industry Research (AIR), Tsinghua University
Research Intern Feb. 2026 – Present
Advisor: Assistant Professor Kun Li

- **Agents for scientific discovery:** Exploring AI agents that support scientific reasoning and discovery in physical systems.
- **Microscopic physical intelligence:** Studying how physical intelligence can understand and reason about physical processes at the micro-scale.
